GME APOLLO PROGRAM

HOW MANY BANANAS SHOULD YOU BRING?

As we prepare for launch, many apes have asked about what items they should bring to the moon and just how many bananas they should need for the trip. Normally it takes 3 days to get there, but MOASS should take longer than that so at least several bunches.

Launch Protocol

1. BUY
2. HODL
3. ~~VOTE~~
4. MEME

Go / No-Go for Launch

The checklist for the upcoming launch managed by **u/stevetheimpact** is now complete as of today. The tower has given the all clear for launch and it appears as if Papa Cohen has given the nod. Pre-flight checklist complete. All systems are nominal. We are a go for launch.
